#### Overview:

#### Empowerment and Personal Healing for Women

##### Part 1: **The Awakening:**

Logic is the cornerstone of a woman's wisdom. Intuition is her supernatural knowing. The problem is, as women our emotions dilute our ability to reason and we mistrust our gut instincts. Working in cohesion, logic and intuition will change the way you evaluate people, life's problems and the difficulties within your relationships—and, consequently, change how you interact and express yourself to others. Nancy Nichols teaches you how to develop the valuable attributes of logic and intuition.

##### Part 2: **How Long Will I Mourn:**

Moving past the pain, anger, fear and resentment of a hurtful breakup or divorce or current destructive relationship, is a devastating event in a woman's life. Some women never let go of these crippling emotions. Understanding a destructive relationship for "what it is" is the first step to regaining your life and begin personal healing. Nancy Nichols tells the compelling true story of how God increased her insight and restored her life after a verbally abusive relationship.

##### Part 3: **The Power of Positive Thought:**

We are what we think. We become our thoughts. Change your thoughts and you will alter your destiny. Negative thoughts attract difficult situations, problematic people and unhappiness. Positive thoughts attract opportunities, success, friendships, and even true and lasting love. Nancy Nichols tells the inspiring true story which gained her the magical power of positive thought.
